

Curriculum Vitae

I graduated in Molecular Biology from the University of Perugia. I conducted my experimental thesis at the Biochemistry laboratory within the Department of Veterinary Medicine at the University of Perugia. I worked at the Molecular Biology laboratory as Research fellow within the Department of Medicine e Surgery at the University of Perugia.

Lab-Expertise

Expertise acquired:

- Management of primary and line Cell Cultures
- Protein Analysis (Immunoblotting; Elisa Test; Enzyme activity)
- Analysis of gene expression (RNA isolation, reverse transcription and quantitative real time PCR)
- Single-SNP analyses - Data processing
